Hi Joanne,

Great minds think alike! I had a similar thought this morning and specifically wondered whether/how to include the Monsanto information under the general category of Labeling. I'm not sure it fits under labeling but since it is a confusing topic, I'm happy to include a few slides on it to help improve everyone's understanding of which requirements Monsanto's tanks do/do not have to comply with.

Good Morning Nancy,

Kent and I were just talking about the Monsanto tanks and the exceptions to the exemptions (that's a mouthful!) and the confusion that many of our customers have surrounding them. Would you be willing/able to include something briefly in the labeling webinar? Maybe just a couple slides at the end? We of course are speaking with them about the info you provided to us, but we think it would be helpful to include it in the webinar's too since we haven't been able to get it out to everyone yet. Thoughts?

Thank you!
